

Southwestern Minnesota Synod
Evangelical Lutheran Church in America
 God's work. Our hands.

Now Is the Time for Moving Forward in Ongoing Reformation

Our synod stands at a pivotal moment. We are eager to embrace the many opportunities to equip God's people to steward the Good News in our swiftly changing mission field. In the past year we engaged in deep listening among congregations, lay and pastoral leaders. The themes that emerged revealed a real readiness to embrace the future with courage. The people of our Southwestern Minnesota Synod are poised to move forward with hopefulness and expectation. It is time to prepare for the future. It is time to mobilize God's people for God's work.

The Funding Strategy Vision:
"Embrace God's Mission + Equip God's People"

Our mission as a synod calls us to empower and equip leaders. Through this appeal we will gather resources to empower leaders in three main areas identified as priorities. We expect our investment will bring significant improvements to our synod's congregations and leaders. In addition to these initiatives, we will also gather resources to allow us to explore strategies we have not yet discovered.

DEVELOP SERVANT LEADERS

*A **Funding Initiative** for the people and congregations of your synod.*

Core to this vision is the belief that God is leading us to develop faithful and effective servant leaders: lay leaders, professional leaders, and rostered leaders alike.

■ Key areas where we believe we can enhance capacity are:

- Equip people in evangelism, preaching, worship leadership, and faith formation
- Educate clergy and lay people in financial literacy and wise budget-making
- Strengthen congregational stewardship responses
- Provide scholarship support for upcoming rostered leaders
- Support our clergy through the Ministerial Excellence Fund

The synod invites you to think about, pray about, and consider contributing financially in a way that fits your capacity and passion.

For more information please contact the synod office.
