Business: computer science,
finance, management

Neuroscience

Master of Science degree in
nutrition

Accelerated licensure in
education program

Executive education program for
mid- and upper-level managers

INTEGRATED SCIENCE CENTER

In April 2016, the inside of Ivers and Jones Science Center were demolished and work began on a state-of-the-art Integrated Science Center. The new facility, which opens this fall, will integrate glass walls to allow for natural light, dedicated labs for both research and teaching, innovative dual-use spaces (“T-search” concept) and informal learning spaces. Sustainable features have also been a key factor throughout the building design process.

HONORING CONCORDIA'S ANNIVERSARY AND OBSERVING THE REFORMATION

This spring, “The Passion of Jesus Christ” composition made its world premiere in Minneapolis and Moorhead. Dr. René Clausen, conductor of The Concordia Choir, was commissioned to create the piece to honor the 125th year of Concordia College and acknowledge its Lutheran roots as we observe the 500th anniversary of the Reformation. The founders of the college interlaced the two events by selecting Oct. 31 in 1891 for the opening ceremony of the college.
