

Southwestern Minnesota Synod
Evangelical Lutheran Church in America

Synod Assembly Guidebook App

The 2023 Synod Assembly Guidebook App is available to download. The Guidebook is a mobile guide for all assembly materials. Anyone can download and view the app, however **assembly voting members must download this app to vote**. On-site registration/credentials and voting will be done using the Guidebook App for the 2023 Synod Assembly.

How to download the **guidebook** App:

Get started by clicking here: <https://guidebook.com/g/swmnassembly/> -OR- scan the QR code.

Tap “Download the App” to access the guide on your iOS and Android device.

Once the Guidebook app is downloaded on your device **open the SW MN Synod Assembly 2023 guide**. You may have to click “Find Guide” if the assembly guide does not automatically open.

All voting members must create an account within the Guidebook app to vote.

The synod has used Guidebook in the past so if you are a returning Voting Member your email might be linked to an old account. That’s okay! Enter your email address and click “forgot password” to reset your account.

Prefer the web version?

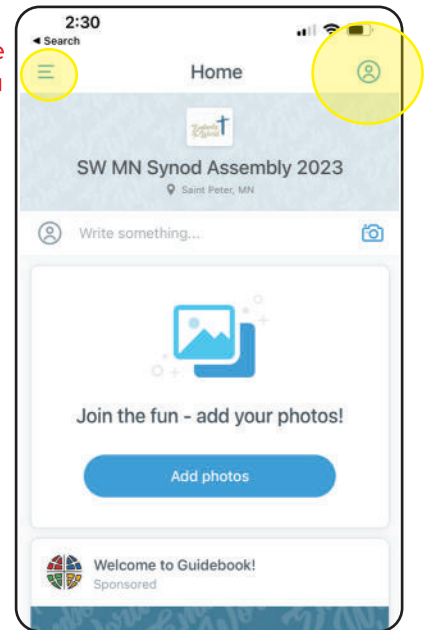

Some content and networking tools may have limited access.

Please contact Kristin Bakeberg at kristin.bakeberg@swmnelca.org

if you will be using a laptop with a browser to access the Guidebook app.

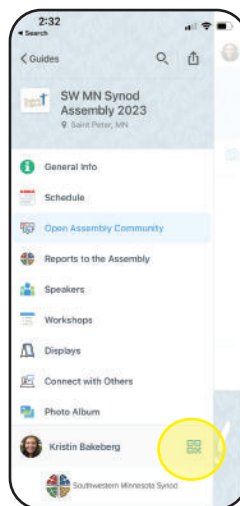

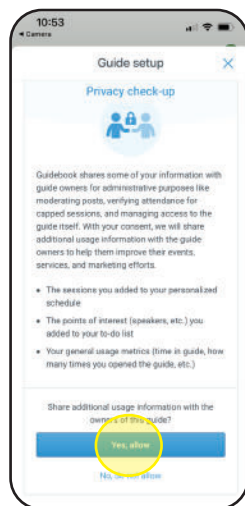

Click the profile icon to set up your account/profile.

Guide Menu

Voting Members: There are two important reasons you need your own guidebook account.

1. Guidebook will ask you to allow sharing of your information with the synod for administrative purposes. **Please click “Yes, allow” on the Privacy check-up message.** This will allow the credentials team access to app attendance for voting.

This synod assembly will **NOT** have voting keypad like previous years.

You will use the Guidebook App downloaded on your own device to vote.

2. Guidebook will create your own QR code for on-site registration at the synod assembly. You will be marked as in attendance by scanning this code.
