

Jan 26, 2023

(2 Year) Purpose:

Empowering church leaders and congregations to imagine and move more deeply into God's future.

Coaching is...an intentional, relational process that invites people to focus their direction, strengthen their responses, and thrive through ongoing change and challenge.

Imagine...

- Leaders embracing adaptive change
- Faith communities trusting Jesus in the midst of transitions
- Grounded people acting out their faith principles
- A synod culture of congregations asking questions and listening intentionally for healthy new directions
- Rostered leaders focused on leading us into God's future
- Trained Coaches available to assist leaders and congregations navigating today

Impact: The impact will be healthy and mission-focused congregations and leaders who are growing into God's future

- Creating a culture where coaching questions and deep listening are normative
- Developing a cadre of trained and available Coaches
- Encouraging Congregations, Pastors and/or Congregational leaders to discover their goals and calling
- Matching individuals/groups with a trained coach
